**BRICS Workshop on Strengthening Health Surveillance**  
***[1-2 August 2016: Bengaluru]***

The BRICS Workshop on “Strengthening Health Surveillance: System and Best Practices” was organised on 1-2 August in Bengaluru.

The two day workshop was organised with the objective to explore the possible areas of collaboration and mechanism for institutionalisation on the communicable and non-communicable diseases surveillance systems across the BRICS countries.

The meeting, inter alia, deliberated upon the surveillance system for epidemic prone diseases, non communicable diseases, mental health disorders, violence against women and children and disaster management.
